

ArBolivia

- Save the Amazon rainforest
- Save biodiversity
- Create a “CO₂ Sink”
- Support small-farmer families

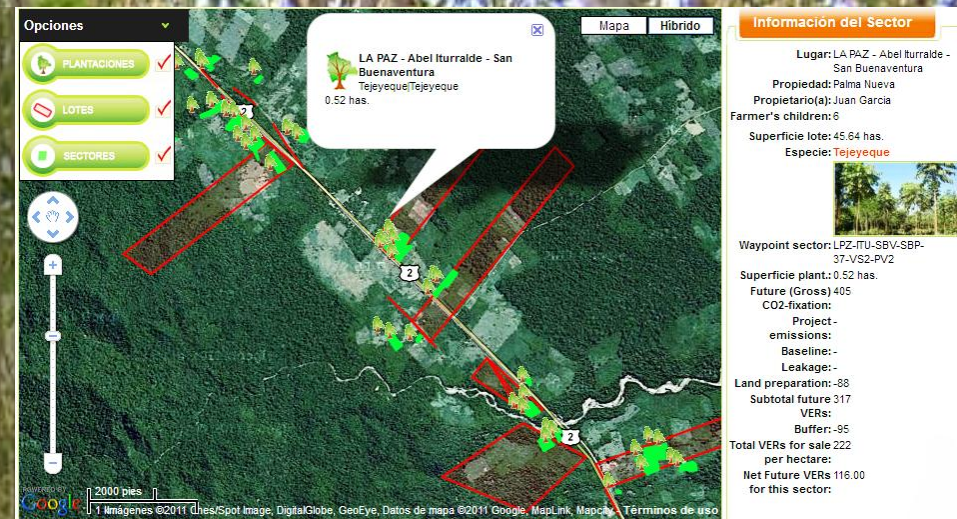

Help ArBolivia
plant more trees

www.arbolivia.org
www.sicirec.org

ArBolivia:

- Grows nature friendly timber
- Pays fair trade prices to farmers
- Protects the Amazon rainforest

The more trees we plant, the more farmers we can support, the more Amazon rainforest we can save and the more CO₂ is captured

make a difference
support our tree planting

see your trees on Google maps
and read about them

Each farmer devotes 1.6 hectare to tree planting; the average smallholding is 25 hectare; most of it is still virgin forest

ArBolivia:

- Provides subsistence farmers with professional land management support for their entire holding
- Pays farmers for the maintenance of their timber plantation
- Helps farmers get access to micro credit facilities

As a supporter you receive:

- Your Banner on the ArBolivia website
- A Tree Planting Certificate
- Co-ordinates of your trees

The table below gives an impression of what you achieve with your donation

Donation (EUR)	10,000	25,000	50,000	100,000
Trees subsidised	4,000	10,000	20,000	40,000
Timber hectares	4	10	20	40
Hectares nature reserve	1.0	2.4	4.8	9.6
Tonnes CO ₂ sequestered	960	2,400	4,800	9,600

Donation per tree used for

Establishment	33%
Maintenance	33%
Management	21%
Marketing	13%
Total	100%
